Professional Summary

Product Designer and AI-Assisted No-Code Developer with 3+ years of experience building digital products across FinTech, SaaS, HealthTech, E-commerce, and AI-powered products. Specialized in simplifying complex workflows, improving onboarding experiences, reducing user drop-off, and designing scalable systems that align user needs with business growth. Experienced in combining product design, UX strategy, AI-assisted workflows, and no-code development tools to rapidly prototype and ship high-performance digital experiences.

Core Skills

- Product Design, UX Strategy, User Research, Information Architecture, Interaction Design
- Onboarding Optimization, Retention-Focused UX, Conversion Optimization
- Design Systems, Responsive Design, UX Writing, Rapid Prototyping
- AI-Assisted Product Development, No-Code Development, Functional MVP Development
- Figma, FigJam, ChatGPT, Claude, AI Workflow Systems, Google Workspace

Experience

Product Designer (Contract) | SWYCHR Tech Africa

Oct 2025 – May 2026

- Redesigned complex fintech workflows, improving task completion efficiency across key user journeys.
- Improved onboarding clarity and retention by restructuring core product flows and simplifying interactions.
- Conducted UX research that uncovered behavioral pain points and improved feature adoption.
- Accelerated product iteration cycles using AI-assisted prototyping and scalable UI systems.
- Collaborated with stakeholders to align user experience improvements with business growth goals.

Product Designer & UX Researcher (Freelance) | Neural Kick

Sept 2025 – Nov 2025

- Designed e-commerce experiences focused on product discovery, trust-building, and seamless purchase journeys.
- Reduced onboarding drop-off by 33% through research-driven activation flow redesigns.
- Improved navigation and checkout experiences to strengthen repeat-purchase behavior and reduce friction.
- Built scalable UI systems that improved consistency and accelerated future design updates.

Graphics Designer & Brand Strategist (Full-Time) | Starr Power Technology USA

Aug 2022 – Feb 2025

- Increased brand consistency by 25% through scalable visual systems and unified design direction.
- Improved clarity across digital experiences, helping users process information faster.
- Supported product direction with user-centered design practices and interface thinking.
- Created digital assets that improved engagement, communication, and brand recall across web and social platforms.

Selected Projects

- **Wysa Mental Health App** focused on emotional clarity, guided interaction, user trust, and accessible support flows.
- **Health in Tech Homepage Redesign** focused on improving trust, navigation clarity, communication structure, and conversion flow.
- **Neural Kick E-commerce Platform** focused on onboarding optimization, seamless navigation, and repeat-purchase behavior.
- **Mavin Homes Real Estate Dashboard** focused on workflow simplification, operational clarity, and scalable dashboard usability.

Education

Bachelor of Science in Computer Science

Michael Okpara University, Nigeria (2023 – 2027 Expected)

Certifications

- UI/UX Design Specialization — Udemy
- Product Design Fundamentals — Coursera
- AI & Prompt Engineering — Udemy
- Brand Strategy & Identity Design — Udemy
